# Family Fun Days 2023

at The RAF Museum Midlands

# Welcome

The Royal Air Force Museum Midlands offers a fun, award-winning day out for all the family, there are a huge array of aircraft and displays in the Wartime Hangars and National Cold War Exhibition.

In Test Flight experience the research and development collection including an aircraft made from stainless steel. Here, you will find Fun 'n' Flight the hands-on interactive gallery and the Black Hawk flight simulator. Beyond Test Flight is the War in the Air collection with classics in aviation history. Photograph the world's oldest Spitfire and view rare German and Japanese aircraft.

Visit the National Cold War Exhibition with its eye-catching architecture and design. Discover Cold War stories in immersive Hotspots; explore thrilling displays of aircraft, iconic cars, models, tanks and even life-sized Russian dolls.

The National Cold War Exhibition tells the story of the Cold War including social and cultural perspectives, and home of the 'Black Buck' Vulcan B2. The interactive hotspots and kiosks pick out key aspects of the era including the Space Race and Cuban Missile Crisis.

Hangar 1 is home to the transport and training collection and many engines and missiles, and in 2022 became the new home for the Bravo November Chinook, and Harrier GR3 artifacts of the Falklands War.

# Family Fun Days

Enjoy all day access to the RAF Museum Midlands and all it has to offer including the National cold war exhibition and wartime hangers.

Make your way over to your private event space where a selection of different food options, bars, dessert offering, and occasional seating awaits you. Perhaps enjoy some entertainment, chat with colleagues, watch the kids get their faces painted and play some garden games.

Then spend some more time exploring the museum hangers and immerse yourself into the history of the RAF.
